WASHINGTON HAPPENINGS IN

By CLARENCE J. BROWN
Member of Congress,
Seventh Ohio District

The year 1941 will long live in American history. It will compare with 1776, 1861, and 1917, for it marks the entry of the American people into a great struggle and the beginning of a crisis in the affairs of humanity. 1941 brought with it the passage of the Lend-Lease Bill, the German invasion of Russia, and the American entry into the Pacific. While 1941 ended with the United States involved in war, the close of the year also found America united as never before. Throughout the year and breadth of America patriots men and women are forgetting past differences in their determination that our American ideal shall be avenged, and that those who strive to destroy our liberties shall be crushed.

The New Year will bring with it many trials and tribulations to test the strength of the American people. There is a great task yet to be done if the United States is to win victory that must be won by American soldiers, sailors, and marines have already proven their valor and fighting ability, despite the handicaps of insufficient numbers, supplies and fighting equipment. When war came the United States was not yet prepared for the conflict. The huge appropriations voted by the Congress for defense have not yet been translated into actual guns and tanks, and planes and ships, for the use of our fighting forces. The biggest job ahead of our people for 1942 is the production of the implements of war for the use of America and her Allies on the far-flung fronts of the world. The final ending of this modern war in which we are engaged will depend upon the production and use of mechanized equipment. Man power alone cannot win. If we give our American fighting men all of the supplies they need with which to wage modern warfare, their victory is assured.

So on the home front 1942 will see all of our national efforts devoted to the prompt, rapid and efficient production of war material. Business and industry, not engaged in the war effort, will find it increasingly difficult to function. It will become almost impossible to obtain many strategic materials, especially rubber and numerous metals, for civilian use. Substitutes must be found to replace many things we have taken for granted in our every-day life during past years. The tax burden will become increased daily. The heavily increased gasoline taxes as a result of the new law passed last October must be paid between now and March 15th. In the meantime the Congress is preparing another new tax law to further increase the revenues that must flow into the Treasury to meet the demands of war. A few days ago the President warned the people of America that it would be necessary to spend at least half of our national income during 1942 for war purposes.

Millions of young men will leave civilian life during 1942 to serve in the Army or the Navy of the United States. They will be taken into service just as rapidly as provisions can be made for housing, equipment and training. It is planned that the personnel of the Navy will be doubled, at least. The Army will undoubtedly have a strength of six or seven million men within a year. From three to four million more men are to soon become a part of America's great air armada now in the making. Hundreds of thousands, and perhaps millions, of American men will be called upon for noncombatant service, either behind the front lines or on the home front. As the year progresses many young men will find their way into service groups or into the factories and workshops of the nation.

Of course, no one can predict what the New Year may bring on the various battlefronts. The immediate future does not look any too encouraging in the Pacific area. The fall of the Philippines can be expected at any time. Japan is in danger as in all the great Southwest which it defends. Alaska and the Hawaiian Islands may undergo severe attacks. Our forces at the Panama Canal may be called upon to defend that most important artery of transportation between the Atlantic and the Pacific. American troops will in all probability be fighting in Africa, and perhaps in Italy and Asia, before 1942 ends. On the German side, are the recent

COURT NEWS

DIVORCE GRANTED
H. E. Hardin, and wife, filed suit this week in common pleas court for a divorce from Pauline Hardin, Xenia, R. R. 2, charging neglect. Married at Covington, Ky., December 28, 1928, they are parents of a 7-year-old child.

ASK PARTITION
Warren K. Drake seeks partition of Miami Twp. property in a suit filed against Benjamin W. Eaton and others. He also asks an accounting and equitable relief.

JUDGMENTS SOUGHT
The Peoples Building and Savings Co. asks \$304.69 judgment in a suit against Harry C. Skyles and Edith B. Skyles.

AWARD DIVORCE
Four divorces were granted: Goldie Adams from James Adams on grounds of cruelty; Margaret Neatherton from Elwood Neatherton, neglect and habitual drunkenness; Elizabeth Birch from Richard R. Birch, neglect; and Frances Steele Burden from Walter Raymond Burden, neglect and willful absence.

ESTATE APPRAISAL
The estate of Nancy J. McClain was appraised as follows in probate court: gross value, \$15,820; debts, none; costs of administration, \$250; net value, \$15,070.

MAKE APPOINTMENT
Walter Mitchell and Florence Mitchell were named co-administrators of the estate of Samuel C. Mitchell, late of Spring Valley Twp., under \$2,000 bond.

TRANSFERS AUTHORIZED
Allen McClain was authorized to make real estate transfers as the son and only heir in the estate of George G. McClain and as administrator of the estate of Nancy J. McClain.

ORDER APPRAISAL
The estate of Nancy J. McClain was directed to the county auditor for appraisal.

MARRIAGE LICENSES
(Granted)
Charles Edwin Brown, 1125 E. Church St., foundry worker, and Eleanor Frances Hughes, Yellow Springs, R. R. 1.

Paul Orville Stafford, Beaver Creek Twp., farmer, and Ruth Bocher, Alpha Rev. Jerome Schultz, Middletown.
David Wilson Batdorf, Xenia, R. R. 3, foundry foreman, and Gladys Irene Beatty, Xenia, R. R. 5, Rev. J. W. Clutter, Yellow Springs.
Charles Wilford Montgomery, 622 N. Galloway St., student and Margaret Eldora Baughn, Jamestown.
Rev. James McClell, Columbus.
Henry Francis McGrath, 206 Jones St., Dayton, carpenter's helper, and Betty Jean Hall, 49 Maple st., Fairfield.
Rev. Carl F. Mittler, Dayton.
Harold Wilson Strobridge, Cedarville, mechanic, and Lucia Marcelle Lewis, 131 Home Ave.

Lieut. Elmer Earle McKesson, Wright Field, U. S. Army air corps, and Maria Elena Delsell, 18 S. Central Ave., Osborn. Rev. Thomas L. Wooten, Xenia.
Milo Kogler, Osborn, R. R. 1, U. S. Army, and Elizabeth Margaret Prestel, Osborn, R. R. 1, Rev. Bernard P. O'Reilly, Osborn.
Calvin Edward Robinson, 1238 Holly Ave., Columbus, salesman, and Mary Louise Saunders, 418 W. Second St., Xenia.
Robert Farnly Blackmore, Perry, O. R. R. 1, farmer, and Betty Lorain Cartwright, O. S. and S. O. Home. Earl Kenneth Butler, 109 S. Monroe St., DFL station operator, and Ella Marie Schaeffer, Xenia.

Sales Tax Examiner

To Be Here Jan. 14

N. F. Templin, sales and excise tax examiner for this district announces the following itinerary of Greene County towns to assist vendors in filing their sales tax returns:
Xenia—County Auditor's Office, January 6, 8, 13, 16, 20, 23, 27, 28, 29, 30.
Jamestown—Township House, January 14, forenoon.
Cedarville—Mayor's Office, January 14, afternoon.
Yellow Springs—Mayor's Office, January 21, forenoon.
Osborn—Mayor's Office, January 21, afternoon.

Vendors must file their returns not later than January 31.

BUY DEFENSE STAMPS

Higher Prices For Wheat and Corn

The proposed legislation in Congress to set parity prices at 110 per cent instead of 85 per cent of the old 1914 price, means wheat would reach a fixed top price of \$2.37 in Chicago and \$1.12 a bushel for corn.

The New Deal and Secretary of Agriculture Wickard are opposing the new parity price of 110 per cent as inflation. The AAA has been campaigning against higher prices to farmers under a threat of inflation, even opposing the 110 parity price.

The above prices for wheat and corn are from Thompson & McKinnon, Columbus, with the comment that should the 110 per cent parity become law, the New Deal CCC buying millions of bushels of corn and wheat would throw vast quantities on the market to break the price. This was done several weeks ago when wheat reached one and one quarter cents of paying out with a profit to those who had government loans.

The Herald has attended and will stand on our claim that the old parity prices were fixed during depression prices for farm grain crops and not fair to farmers today with high prices and war profits to all kinds of business.

Take the limitations off of wheat and corn and wheat would go to \$2 a bushel and corn at \$1.50 while wheat would reach \$1.50 a hundred at the farm. It is evident the government is going to do everything possible to keep farmers that have loans on wheat and corn from getting a profit by higher prices. It is the trick of the side-street "Three-bell" money lender in every city.

Judge Frank Johnson Is County Chairman Defense Campaign

Roy Moore, of the publishing firm of Bruce-Moore Syndicate, Canton, O., state chairman of the Ohio campaign for the sale of defense bonds and stamps, announces the appointment of Judge Frank L. Johnson as general chairman for Greene county.

Judge Johnson already had a working organization in the county through representatives of the two dominant political committees which is to work in each precinct in the county.

When the Greene county grand jury indicted Ralph Schulte on a serious charge in connection with juveniles, Sheriff Walton Spahr started to investigate the Schulte home, near the Greene county line, but in Montgomery county.

Recent thefts had been solved especially in regard to building material of all kinds. The sheriff suggested included stolen building materials such as lumber, brick, plaster, cement, roofing, electric fixtures, electric pumps, and plumbing material. In some cases wholesale robbery stripped numerous new houses.

Sheriff Spahr found a quantity of material in the Schulte cellar and in another house Schulte was building. The investigation resulted in the arrest by Montgomery county authorities of Robert Grove, 30; Glenn Silvers, Jay Brown and each are being held as having a part in a ring that specialized in robbing both uncompleted and completed houses.

Sheriff Spahr has been able to trace the ownership of most of the stolen property. Schulte is now serving a long prison sentence in the penitentiary.

Xenia National Bank To Photo Checks

R. O. Weed, cashier of the Xenia National Bank, announces the installation of a check photographing machine, or a "recordak junior," which will photograph all "foreign" checks cleared by the bank. An average of 900 checks are handled each day and will be photographed.

The films will be developed in Cleveland on rolls 200 feet long, indexed and ready to file in metal containers. The bank recently installed a kitchenette fully equipped, including a refrigerator and stocked with food supplies to enable employees to prepare their own luncheons when desired.

Probate Court Office Turned Into Restaurant By Joe Koenig

With Probate Judge Homer Haurie swinging in a swing chair at the Fairfield air camp as a "captain," business in the county court has not been going on as usual. Judge Haurie having pulled a plum from the Washington New Deal political orchard at \$450 a month and assistance of \$75 extra and at the same time drawing down a \$500 monthly salary off of Greene county taxpayers for his supposed service in caring for the duties of the office, has been hearing from the public and also from some of his associates that are chaffing under the load of long hours at no increase in salary while having to stand for the sneers of attorneys and the public because the "Captain Judge" was in a bomb proof job at the airport while bank of good old-time Democrats were serving their country at \$21 a month.

The Judge announces now that he will hold court until four o'clock on Saturday and also Tuesday evenings. He does not get off duty at the airport until four o'clock. Those having business for the night session are expected to bring night-shirts or gowns as the case requires. Greene county attorneys have not yet decided to keep their offices open to meet the unusual hours set by the "swivel chair captain."

Some idea of the tenacity among the staff in the Probate Court office is shown by the resignation of Miss Bernice Kinsie, who tired of the extra work and long hours without extra pay while her superior was wallowing in two fat monthly salaries. The Judge being a New Deal Democrat with a Republican parental background, is hardly conducting the office and treating his office staff as the New Deal Social Security laws require of manufacturers and retail stores. Long hours and no extra pay for other employees would bring down the wrath of a host of Roosevelt inspectors and official watchdogs on all employers of labor.

The public will wait many months for an announcement from the Greene County Bar Association that all law offices in the county will be "open for business as usual" to meet the new hours set by the "swivel chair judge."

Greene Co. Farmers Get \$200,688

Immediate distribution of 996 checks valued at \$200,688.44, will begin to get to farmer cooperators in the 1941 AAA program here, it was announced Saturday by J. B. Mason, chairman of the Greene county AAA committee.

The checks cover benefit payments under the conservation program and partly payments on corn and wheat. About one-half of the checks total earmarked for this county was received in the installment Friday. It was said.

America Is Calling

America needs money to provide OUR BOYS with food, clothing, equipment, and ammunition, and in order to help do this you are asked to buy Defense Bonds and Stamps.

These Bonds are sold in various denominations, the lowest costing \$1.75 and maturing in ten years at \$25.00. The fifty-dollar bond now costs \$27.50 and matures in ten years at \$250.00. The hundred-dollar bond costs \$75.00 and matures in ten years at \$500.00. The bonds can be cashed in at any time after sixty days and cannot depreciate in value. They can be purchased at any bank or post office.

DO NOT GIVE YOUR ORDER FOR A BOND TO ANYONE WHO IS NOT DULY AUTHORIZED. Stamps can be purchased in various denominations from ten cents to one dollar, and when you have sufficient stamps for a bond, the stamps can be traded for a bond.

Our goal—to sell a share in America to every Greene County income earner. Let us show our enemies that every man and woman in Greene County is backing America. Remember Pearl Harbor and Manila: Buy Bonds and Stamps Today and Tomorrow. Keep on buying. Buy as if your very life depended upon it—it does.

Frank L. Johnson, Chairman, Greene Co. Committee

MERCURY DROPS BELOW ZERO

RALPH O. SPAHR NAMED FIRE COORDINATOR

Ralph O. Spahr, member of the Board of County Commissioners was named auto fire coordinator for the county outside of Xenia city last Saturday when a meeting of mayors and township trustee chairmen held a meeting for that purpose.

Three other men were named as an advisory board for Mr. Spahr and will consider tire cases. John Scott, Dayton, R. R. 8; William Hupman, Osborn, and N. N. Hunter, Jamestown, form the advisory board. Raymond G. Spahr, ex-clerk of the county commissioners was named secretary of the fire rationing board and Greene County Fire Defense Council.

3.35 Tires Is Quota For Cedarville Twp.

Mayor O. A. Dobbins states the allotted quota of tires for this township is 3.35, which means of course only three tires can be sold during January. The first on the preferred list is physicians. Veterinarians and plumbers come next.

Under government orders to tire can be sold to anyone without the necessary blank signed by a special commissioned dealer that inventories each request for three tires.

A report was in circulation Monday that batteries for motor cars and trucks were next to go on the restricted list. Most people are of the opinion that it is the restricted sale of gasoline the government wants and is using the sales of cars, tires, etc. to bring this about. It is predicted one third of the automobile licensed today will be off the road by March or by the time the 1942 license tags must be secured in April.

Farm Accounts To Be Studied

The annual farm account summary school will be held at the Civil Service Room in the Post Office Building in Xenia, Wednesday, January 14, beginning at 9:30 a. m. for farmers who have kept records on their farm business the past year.

L. H. Barnes of the Farm Management Department of Ohio State University will be present to assist farmers in summarizing and analyzing their records. The project is sponsored by the local extension service and the record books used are prepared by the Ohio Bankers Association and the State Agricultural Extension Service. These books include a record of receipts and expenditures plus a beginning and closing inventory and when properly analyzed gives the farmer a detailed picture of his farm business. They are of particular value at present in helping farmers file their income tax returns.

Mobile Dental Unit Used For Survey

A unique little dental office on wheels, describes the Children's Dental Unit, Ohio Department of Health, which is surveying the mouths of the school children in Greene County and Xenia city.

Complete dental equipment is housed in a 28-ft. trailer and is taken from school to school for the examinations. This method enables the dentist to give a much more thorough examination than is possible in a school room and does not disrupt classes or upset school discipline. The unit is here at the request of Dr. Savage, Health Commissioner, to stimulate an interest in the early correction of defects in the teeth of the children. It is felt that teeth repaired for the young child is the best method of controlling dental diseases. The unit will be in the county for two weeks.

Yellow Springs School Differences Brought To Citizens Group

Differences among school board members over policy resulted in members W. H. Hammond and Clark E. Meredith calling a public meeting at Yellow Springs on Friday evening. It had been intimated that certain revelations would be made at that meeting and some 400 persons filled the high school auditorium.

Mr. Hammond took the floor and stated his interest in all public schools and education and announced he had certain important information relative to school policy that he would produce to anyone interested. At the same time he announced his resignation as a member of the board, which was accepted at a board meeting Monday evening. The Friday evening group voted against accepting the resignation.

Ernest Morgan, who was elected as a member of the board at the last election, took the floor and led the discussion until someone called for a permanent chairman and Mayor Lowell Fees was chosen by a unanimous vote.

Expressions from the two groups were aired in a mild way but nothing definite was placed by either side before the meeting. Mr. Hammond retired after making his statement, predicting that some short would be dictated at his intention to resign, having one year set to serve. Hammond and Meredith have been the minority members of the board according to reports. The whole situation seems to be one whether Antioch College is to control the schools or the citizens of the district. The college was well represented at the meeting and took exceptions evidently to statements that had been intimated in the call for the meeting.

The result of the meeting was the appointment of a committee of five citizens to confer with Mr. Hammond and investigate his evidence and report to a future meeting as well as giving the result to the press. The committee named from the floor upon motion, consists of J. N. Wolford, chairman; Mrs. Bertha Hull, Robert Brannum and Charles Alexander and Dr. L. E. Gibbs of the Antioch Faculty.

Mr. Hammond was at one time a member of Antioch College. He is the inventor of "Collegiate" and heads a company in that village manufacturing same. Two years ago he gave \$15,000 towards the building of an addition to Bryan High School. Ernest Morgan is a son of Dr. A. E. Morgan, former head of TVA. The other members of the reorganization board are Mrs. Glenn Fink and Mrs. C. S. Adams. Mr. Morgan succeeds Prof. Frederick, Antioch College Faculty as a member of the school board.

Hog Shipments Show A Decrease

According to reports from twenty of the leading markets the shipments of hogs for 1941 showed a decrease of 10% per cent over 1940. The Cedarville Livestock Yards under the management of J. L. Snapp showed a decrease of only 7 per cent over 1940. The average weight of the local shipments were 211 1/2 lbs., compared with 213 lbs. in 1940. The average price was \$36.61 per hundred compared with \$5.85 in 1940, an increase in price of 70 per cent.

The lowest price paid was \$7.20 on January 2nd. The highest price was \$12 on Sept. 8th, 1941. The local yards handled 26,818 hogs in 1941 and 28,064 hogs in 1940.

W. W. Barnett Heads County Board

W. W. Barnett, Silvercreek Twp., oldest member on the board in position of service, has been elected to head the board following re-organization. The other members of the board are Ralph O. Spahr and Charles F. Green. Raymond G. Spahr, near Xenia, was named clerk of the board. He was appointed clerk last May 1. Fred Randall, Xenia, will again be dog warden; Dr. W. T. Ungard, Xenia, county home physician; Dr. R. L. Malone, Jamestown, county jail physician; and Harley Hill, Xenia, assistant foreman of the Court House hearing plant. Dr. Ungard has served as county home physician since Dr. S. C. Ellis was called into the U. S. Army medical corps.

WOOL RATIONED

WASHINGTON—The OPM Saturday ordered civilians use of wool, such as that for clothes, rugs and other items, reduced during the first quarter of 1942 to only 40 per cent of the amount used during the same period last year. The order became effective immediately.

NEW BOARD OF HEALTH: Dobbins, Morgan, Spahr

With the advent of a New Year the village found a new board of health of business and industry. O. A. Dobbins, who succeeded J. B. Trane, former mayor. The members of the former administration were elected last Wednesday night, just the close of the year 1941. At the same time the board was re-elected. There were no changes in organization. Members took the oath as is required by law.

Monday night the first regular meeting of council was held with Mayor Dobbins presiding. Under the new municipal code the president of council must be the member residing in the highest number of votes and this year fell to C. H. Green who had served as president and also as vice mayor under the out-going administration.

One of the first official acts of Mayor Dobbins was to appoint William Marshall, chief of police, as required under the new law who serves without election until removed by council. Council confirmed the appointment as required. Mayor Dobbins asked that the appointment of a deputy marshal be deferred for the time being. To this council agreed.

Robert Demehy was re-appointed as chief of the fire department as were the volunteer members, all of which were confirmed.

P. J. McCormick, village clerk, conveyed a message to council from County Auditor James J. Curlett that all expenditures from sales tax funds for different purposes should be cut for the present by fifty per cent due to the restricted sale of automobiles, tires, etc. and gasoline tax due to non-use of automobiles. This will greatly reduce the expenditures for upkeep of streets and alleys.

Members Arthur Hughes and Arthur Cummings of the Board of Public Affairs were present, having asked Mr. McCormick, clerk of the board, to convey to council the necessity of additional income to provide for the upkeep of sanitary sewers. District members were present and discussed the same.

Council authorized the purchase of a municipal code for use of the mayor, there being no up-to-date law books on hand.

In order that the best possible service can be given by the fire department it has been suggested that all citizens keep in mind, especially on their telephone numbers found in the front of the telephone directory that will summon the fire department in case of need. Often times many minutes are lost by not properly notifying the department as soon as possible. In case of fire call 6-8441 and 2-881. During business hours a call can be given to Cummings, Chevrolet Garage, 6-2701.

Mayor Dobbins has set aside Monday from 9 to 12 Noon for the hearing of complaints or transaction of corporation business as well as hearing charges following arrests. No Sunday or night calls are necessary as business as usual will only be transacted on the hours mentioned above, unless by other agreement.

One of the first administrative acts of the Mayor in relation to law enforcement was the instruction given Monday to those who operate taxi cabs. Orders were given to prohibit the admission of minors with or without parents as provided by state law. Instruction was given to immediately discontinue the "running game" under enforcement of the law, as not only preceptors but all those who engage in the game.

In debating his policy Mayor Dobbins made it plain that he had no intention of allowing the law to be enforced and taken out for his use to enforce the law and to prevent to see that same was done during his term.

Monday morning found "Junkies at work" under the Mayor's plan. Some being charged of selling narcotics. In the house of the war's policy program is followed in the course of a few weeks it is expected that business will drop to normal or the public treasury will be a healthy growth.

WILL GOVERNMENT INTERFERE WITH THE PEOPLE?

The whole nation has been asked to cooperate with the government in a program that has restricted the sale of automobiles, trucks, tires, etc., which during the past few years have become a part of the life of the nation and a daily requirement. War always gives what ever advantage it has to the government, and it is no exception in this case. Nothing has so disturbed the nation, not even the Japanese attack on the Philippines, as has the order almost banning the use of automobiles. The government has even gone so far as to estimate "consumption of all automobiles and trucks" as an order that hardly fits in with the boast of a "democratic" form of government. Such orders have been condemned by our own government where Hitler, Mussolini and Stalin reign, as well as in Tokyo, the quarter of dictators.

This being no threat for discussion of difference of opinion the restricted sale of autos and tires is in force. The public is skeptical of such an order being necessary, a thing that did not happen in the Civil War days with the horse and buggy. By the restriction, hundreds of thousands of our people are left stranded not only in cities but in rural sections.

We hear much of the need of "unity and cooperation" of our people with the government on war plans, more sacrifices, more work, longer hours of toil. Yet at no time has the public been given even intimation that the government was going to make any sacrifice or reduction in the plan to aid defense where rubber is required as never before.

The roads of the nation are covered each day by thousands of automobiles owned by the government and operated by some political appointee on public salary and riding at government expense. Each day we see government cars with NYA, CCC, Ag. Dept., Forestry Dept., to say nothing of army trucks, and no one can take issue with the use of the latter if it is in a line of duty. Several days ago three government operated automobiles passed us on the Cincinnati pike south of Xenia in a space of ten miles and all going in the same direction except a CCC truck. The public evidently would have a different feeling over the auto-tire situation and the demand for reduction if there was assurance needless government cars were taken from the highways.

The gasoline situation in the East some months ago proved to be a "hot potato" for the New Deal who forced the issue as a conservation measure in the name of defense. The public refused to believe it and rebelled and the order was lifted.

This week we read of an outbreak among 500 tire dealers in Chicago who cry discrimination. The charge is made that the two major mail order houses in that city now have the tire situation within their grip in that city. Even the Standard Oil Co., with 500 stations did not get a least one inspector while the two mail order companies were granted ten inspectors each. In making a request for tires an inspector must give approval and his fee is fixed at fifty cents for each inspection or tire. The inspector will have much to say where the car owner must get his tires, according to the charge in Chicago. In addition, charges of political manipulation and pull feature the Chicago situation with ward captains and committeemen in the Democratic party under a Democratic mayor setting up an organization against the 500 independent tire dealers for the benefit of the two mail order houses.

If the government does not show more cooperation by withdrawing the thousands of useless automobiles that ply the roads of every state, and such a situation eliminated as has developed in Chicago, it will take a small army to force the public to comply with any order. Unity and cooperation cannot be one-sided. The government should set the example and we are sure the great majority of auto owners will comply.

THE LITTLE GUY

What distinguishes this country from the other great nations of the world? There are many possible answers to that question. And here's one of the best: "The United States is the country where the little guy is boss—where the little guy can go as far as his energies and abilities allow—where the little guy doesn't have to bow and scrape to anyone."

Little guys made this country. They came here from everywhere to establish freedom and escape tyranny. They landed in a wilderness. They were often cold and hungry. They built the homes and cleared the land and raised the children. They fought the wars of the past, just as they are fighting this war. The little guys were proud and strong and confident of the future, and the great land in which we live is their gift to us, the little guys of the present.

Little guys built the industries of this country. They saved a few dollars and put them into a store or a bank or a factory of some kind. They took chances. Much of the time they lost, but that didn't dismay them. They saved a few more dollars and took new chances. They didn't laugh when some visionary came along with an idea the wisecracker said was obviously insane—the telephone, for instance, or the automobile, or a plan for lighting homes with electricity. There might be something in it, they thought, and they played the long shot. For the visionaries with the ideas were the same kind of people—little guys trying to get ahead, little guys trying to build and create. And some of them went from shacks to mansions in a year or two, and a year or two later were back in the shacks starting again. They always started again. It was in their blood, their bone, their character. The little guys didn't give up.

All of this country is a monument to the little guy. All of our industries, our farms, our homes, our resources—the little guys did the work. They went into the oil fields and brought out the black gold. They dug in the earth and gave us our coal

Illustration of a car.

The order for rationing of tires has been in force since October 1, 1941. It has been passed by the two major houses in Chicago. The order is a part of the government's war program. It is a restriction on the sale of tires. It is a restriction on the sale of tires. It is a restriction on the sale of tires.

It is amusing to hear some comment on the part of the Democratic Party. The order is a part of the government's war program. It is a restriction on the sale of tires. It is a restriction on the sale of tires. It is a restriction on the sale of tires.

We have been tipped to a real good story of family politics, war, auto tires, etc., in a family divided politically with the head one strong for the New Deal, then on the fence and now widely in the air. A certain farmer went out Sunday morning to get the gasoline buggy ready to bring the children to Sunday school. While this was going on the mother was running into the house and getting into their bed. About the time the mother had completed her task, father came to the door and in a none too quiet manner shouted "Get in! Get in! Get in!" Then followed a discussion why there was no extra and father had to reply that he could not buy one under government order when in town Saturday night. The morning was cold, snow covered everything and father settled down by the kitchen stove to warm himself and no doubt made a good meal. Mother was not in the "waiting" mood and somewhat argumentative because the children would miss Sunday School. Father said nothing but mother finally let loose: "Well, I suppose you are satisfied, but you can't buy tires nor automobiles, but you still have Roosevelt. He was not satisfied until he got us into war. From now on you'll see who gets tires and who can't. You wanted him (Roosevelt), now keep him." And mother had the last word—as usual.

The New Deal has hatched an unpedigreed chicken with Mayor LaGuardia, New York, and Eleanor, the First, presiding in a dual capacity as head of another bureaucratic board known as the "Office of Civil Defense." One is about as radical as the other. The former once a Socialist congressman before the foreign element in his city elevated him to mayor and the other a contributor and sympathizer with the Communist cause. It would be natural that the two could not get along together and they have not. The Mayor wanted Congress to appropriate only a hundred million to manufacture gas masks for the public knowing that Hitler was going to gas everybody here. Royalty over in England went into the gas mask business on a great scale and scared everyone into purchasing a gas mask, even down to masks for little babies. English politicians reaped a harvest and to this day as close as Hitler is to the British Isles and as many thousand planes as have flown over all Britain, no one has ever heard of a gas bomb being dropped. Just why he has not resorted to the same tricks as the combatants used in the First World War, no one knows. When LaGuardia urged such an expenditure Congress for some got red-headed. The War and Navy Departments protest such an unnecessary. Sentiment out the New York mayor behind the "right ball." As to the friction between the "Little Flower" and Eleanor, the First, both tried to steal all the first page publicity and jealousy arose. Finally the press got wise and neither was getting any place.

The New York Times in an editorial Saturday laid down some law to the

and metals. A few became famous, but the millions remained unknown. They worked and died in obscurity, but this country is an everlasting monument to their deathless spirit which lives on.

That is the ideal we Americans must always keep in mind—America must be a place where the little guy is king. Free enterprise is the little guy's kind of enterprise—he can go into any business he wants, invest his savings in whatever he wants, and lick the competitors to a frazzle if he is able to. The government belongs to him—he doesn't belong to the government. The little guys made America, and today he is perpetuating America. And tomorrow he must be the symbol of America.

Illustration of a car.

The government order checking the sale of tires only on written order of some local board and the sale of automobiles has started a hell of a agitation even greater than the "gasoline restriction" which "Anti-In-His Pants" staged on the Atlantic Coast some weeks ago. Several hundred thousand auto salesmen, tire salesmen, garage mechanics, etc., have been laid off. Just as we have half a million workers in the automobile plants in Michigan. This is pinching business. It has hurt the roadside gasoline station. The eating houses, Southern resorts that usually have enormous business at this season say the entire situation with blockades is keeping thousands away from the South. California feels the pinch for the mid-westerner or easterner does not want to spend a winter dodging gas bombs even in California midwinter sunshine. But resort people are not the only people to suffer. Every line will suffer as usually it does when this or any other country is at war. The people did not think of all this during the months this nation paraded with a 'chip on its shoulder' during any or all to bomb our ships or distant island cities.

There is not going to be business as usual in this country while we are at war. No one need expect it. There will be war profits for those who get war orders and those who manufacture or retail necessities. The great number of people on a limited or fixed income will suffer most due to greatly increased prices. This always happens during any war but few there were that gave the situation any consideration before actual war hit this nation.

There is going to be a lot of necessities on the restricted list—except liquor. More than one family in rural Greene Co. will not be able to get one of the first twenty-four new tires for the auto that will go "sale. Hundreds more that have swallowed the 'New Deal' theory, book and line! found a few days ago they had no "friend in court." The fellows that have been in the habit of thinking for themselves took time to seek sugar in going to in price because Cuba would not sell her supply of cane sugar at the established New Deal price. Uncle Sam had to meet the Cuban price. Yet Florida is under the Cock-eyed AAA and sugar farmers are being paid not to grow sugar cane and refineries are paid government dollars not to operate while the rest of the nation must dig down to pay more for Cuban imported sugar. New Dealers should send congratulatory telegrams to Vice President Wallace and Secretary Wickard for their interest in protecting sugar consumers. Last April we were in a group of newspaper publishers, more than 100 that were operated at Cleveland, Florida, and were employed by those southern Democrats who never permitted themselves to be termed New Dealers without protest, to ask Congress to drop the Wallace plan so the farmers in that state could grow more sugar cane. It was brought out that under government regulation that state was not permitted to grow enough sugar cane for its needs of its own people, when they could supply most of the nation at five cents a pound in any state east of the Rocky Mountains. Here is one of the places where the wonderful AAA is now going to reach into every pocketbook to get extra money for a little sugar in each cup of coffee. The farmer that holds up for the AAA has no grounds for complaining of the act of anything he has to purchase. The New Deal has wiped out anti-trust laws and gone into the price fixing business themselves. As a supposed friend of the New Deal we notice the American farmer is to go back to "old Dobbin."

This calls to mind the discussion in a congressional committee as to what was to become of the many thousands of persons making a living in country garages, automobile sales agencies, if there was to be restriction in the sale of cars, tires, gasoline, batteries, etc. One of the New Deal leaders that usually voted yes on any bill that came from headquarters blurted out—"Let all them fellows go to work on the farms, if help is so scarce as farmers say it is." A whiff head poured off or what looked for a time might turn into a heated argument over the statement.

GREETINGS TO YOU FOR THE NEW YEAR

Another year has passed by and it is again a pleasure for all of us to say "Best Wishes for the New Year." We sincerely hope that 1942 will turn out to be an adventure in living that will help bring peace and normal life to everyone.

It is our wish that you will let us be of aid, whenever and wherever we can, in assisting you in your financial problems... as well as affording you a safe institution in which to open, or continue, your account.

Plan now for 1942! 1941 with its attending successes and disappointments is a thing of the past! Since we can't back into success, we must, necessarily, go forward! Perhaps we can assist you... please feel free to call on us!

Dec. 26—Death of Thomas L. Calvert. Schools offer auto mechanics Course for Defense.

THE INFANCY AND BOYHOOD OF JESUS
LIMON TEXT—Luke 2:1-52. 30. 40. GOLDEN TEXT—Young men, be wise and listen, and in love with God and man.—Luke 2:12.

"Nobody knows what a boy is worth. And the world must wait to see. For every man is an angel's place In a boy that used to be."

Jesus was "only a boy" as He grew through infancy and childhood, but in that baby and that boy, reared at all the stages of growing. He was not just like any other boy, yet His growth and development were normal, and we may learn much that will enable us to help the boy in our home, in our block, or in our church.

The mother of Jesus, in fulfillment of the law of her people, on the eighth day identified Him with the nation (Luke 2:21), and then at the end of 40 days brought Him, with her humble sacrifice, to present Him to the Lord. There a beautiful and prophetic scene took place as the Holy Spirit revealed to godly old Simeon His plan.

I. Complete Salvation—in a Baby (vv. 25-35).

The Holy Spirit (not yet come as the indwelling presence in believers' hearts) and came upon Simeon, a man right with God and with a deep longing in his heart for the coming of the Messiah—"the consolation of Israel." He was assured of living until that day, and now as he waited in the temple the babe who fulfilled that promise was laid in his arms.

He blessed God as he broke forth in praise and prophetic utterance. Note the full conception of the work of the Redeemer—salvation from bondage and fear of death, light to the Gentiles and glory to Israel, a stone of stumbling but also of rising again. A revealer of the hearts of men—yes, and One whose sacrificial death would pierce the heart of His mother.

One is glad that Simeon and Anna (vv. 36-38) and "them that looked for redemption in Jerusalem" saw in Mary's infant son the Son of God incarnate, for round about was unveiled (Matt. 1:1-23). "Ired" (Matt. 2:1-6), and indifference (Matt. 2:4, 5).

Is it not so today? Christmas has just been celebrated. How many saw the babe in the manger as Jesus the Saviour?

The scene changes—the little family is in Nazareth in the humble home—and there we see

II. Perfect Development in a Boy (vv. 39-40).

The period from infancy to accountability (12 years) is summed up in the full-orbed growth of the boy Jesus described in verse 40. The scene changes of every child from birth to 12, or somewhere around there, until the period of adolescence, is to grow without any sense of responsibility except obedience to authority and obedience in the case of a child is always in order to give the child perfect freedom from everything else, without any sense of responsibility. That is the story of Jesus: He grew! (G. Campbell Moore).

Growth is, first of all, physical. Jesus stands by the side of every boy and girl as the body grows from boyhood to maturity, for He too knew that experience. We may talk of Him as an understanding friend about the physical needs and problems of our children. Let us remember that here, as elsewhere in Scripture, the physical body is recognized as important.

Mentally, He experienced growth. The strange, apocryphal tales about the child Jesus, representing Him as a man of mature wisdom in a child's body, do not compare even remotely with the beautiful naturalness of a keen-minded boy asking questions, observing, always learning. "Boys and girls, you may talk with confidence to Him about your lessons, your growing interest in this exciting world of ours, of your need for guidance in learning. Be sure that He will understand."

The crowning touch upon the growing personality of the child is the spiritual. We read of Jesus that "the grace of God was upon him." "Grace," says Dr. Morgan, "is first, that which delights and charms. Grace, secondly, is desire to impart to others the things that make them happy. Grace, finally, is the activity that does this at all costs." A gracious child is an altogether delightful being; and when that gracefulness is the result of the "grace of God" upon him, it is surpassingly lovely, for it makes him Christlike, even in the days of childhood.

Great and grave has been the neglect of the spiritual life of children for whom much has been done physically and mentally. Christian parents must not make that mistake—and they need not, for the Lord Jesus here too stands ready to counsel, guide, encourage, and strengthen them in every good purpose and deed.

NOT RANCH OF ROBERT
Population of this Greene County Jail showed a decline of 51 in 1941, according to Sheriff Walter Spahr, who said 440 prisoners were housed there, compared with 491 in 1940. Several other facts were made by the sheriff's office but the statistics were not documented.

The sheriff's report revealed 17,240 meals were served last year to jail inmates, an average of 1,487 each month. Two persons started the new year off wrong—they were behind jail bars.

Sheriff Spahr said his office investigated 274 automobile accidents last year and 100 others too trivial to report.

Washington Letter
(Continued from first page)

successes of the Russian forces. The German armies are being swept back with heavy losses. Rumors of disintegration within the German ranks are rife. It is not beyond the realm of possibility that 1942 may see a serious breakdown of morale and an internal revolution within Germany, as well as in Italy. A final desperate effort to invade the British Isles may be made by the Axis Powers. An all out struggle for control of the Mediterranean area seems certain. 1942 will be a hard year for all of us. We will be called upon to make many sacrifices. We may have to endure some reverses. But we believe that by the end of 1942 a victory for our righteous cause will be within sight.

Licenses for Males \$1.25
Spayed Females \$1.25
Females \$3.75
Kennel \$12.50

Under a ruling by the Attorney General of Ohio, the \$1.00 penalty must be collected from those who fail to obtain their license.

The General Code provides that if the fee is not paid on or before January 20, the County Auditor shall assess a penalty of One Dollar.

If specifically forbids the Auditor reducing, abating, or permitting any penalty required by law, to be collected by him.

If not paid then Auditor and his bondsmen are liable according to the Attorney General's ruling. The County Auditor has no alternative but to enforce this ruling.

James L. Gullett
COUNTY AUDITOR
